- Attendees select a date and time from a drop-down menu. The attendee can also include a brief note about a product or service they would like to discuss so the sponsor/exhibitor can have the appropriate information available. This note appears in the meeting notification the sponsor/exhibitor receives.
- Each sponsor/exhibitor will have pre-assigned video chat administrator(s). This is done through the online asset form. It is important that your video chat administrators are registered for the meeting and logged into the platform during the live event to receive and accept meeting invitations.
- Once the attendee has sent the request to meet, your administrator who is assigned to the date/time slot of the requested appointment will receive an alert through the virtual platform. Your administrator can accept, reject, or reschedule.
- Meeting notices are posted in the “My Networking” page within the virtual platform for both the attendee and the video chat administrator. Assuming the invitation has been accepted, both parties select “Join Now” at the designated meeting time to be connected.
- A document detailing how this feature works can be viewed at <https://s3.amazonaws.com/HMP/booth-networking.pdf>
- In the online asset portal, the sponsor/exhibitor will assign the following:
  - Video chat administrator(s) (names and email addresses). Administrators must be registered for the meeting and logged into the meeting platform during the live event dates.
  - Meeting availability. This is important so that the attendee requests a meeting at dates/ times that have been pre-approved by the sponsor/exhibitor.
  - Sponsor/exhibitor can assign different administrators at different times, i.e.,
    - 6/12/21 10:00 AM – 10:30 AM Eastern / John Smith [jsmith@email.com](mailto:jsmith@email.com)
    - 6/12/21 11:00 AM – 11:30 AM Eastern/ Jane Doe [jdoe@email.com](mailto:jdoe@email.com)
- We are unable to assign more than one staff representative at any given timeslot.
